(upto 15.12.08) from defaulting companies. NPPA continues to take appropriate action regularly for recovery of the overcharged amount. In some cases the recovery is affected where the companies have approached the Hon'ble Courts and the cases are still *sub-judice.*

(d) At present there is no proposal under consideration of the Government to regulate the sale of medical devices. However, a guideline specifying requirements for manufacturing, import of medical devices is being prepared. The time frame for the same is yet to be finalised.

(e) Yes, Sir. Government has decided to open "Jan Aushadhi" generic drug stores in the country depending upon the financial assistance and other support offered by respective State Governments. The first generic drug store in the name of "Jan Aushadhi" has been opened at Civil Hospital, Amritsar (Punjab) on 25.11.2008.

(f) Price control mechanism of the Government is based on the economic criteria aimed at controlling monopolies in the mass consumption drugs. The Government believes that in most of the cases competition is not able to control the prices and consequently there is need to exercise price control. Presently, price control on drugs is done under the provisions of Drugs (Price Control) Order, 1995. To strengthen the price control mechanism a Draft National Pharmaceuticals Policy was submitted before the Cabinet for its approval. The Cabinet considered the Policy in its meeting held on 11-1-2007 and decided that the matter may, in the first instance, be considered by a Group of Ministers (GOM). GOM has since been constituted and has held four meetings so far. GOM is yet to make its recommendations to the Cabinet.
